緋呂河とも

痛曲叛ポリフォニカ本も、こうして無事一冊の単行本としてまとめる事ができました。
なかなか大変でしたが、
原作の良さをもっと活かしつつ
長く続けられるようがんばります。

Even if one of the Founder Spirits tries to exert authority...
Without the Isle of Spirits now, not having the Commandia results in this happening, huh...
However... Even if it's just Bourai, the only one able to bestow power of such a degree to them...
KUH...
As expected, there are some things that only those Dantists the world's most powerful entities can express...
...It is the one and only Shidara Raytos of the Four Dantists...

Note: There are a lot of names mentioned in this series that may not be very familiar if you have not looked into the Folyphonica universe before, so please refer to the notes included at the end of this release for clarification. You do not need to read the other manga series to understand this one, as this one is a standalone story.

What... the..?!
Music..?!
The Four Dantists..?! No...

I shall play. That is for our pact.

That is our pledge.

Who are you..?

I want you...
...to be mine only...
Eh..?
For my sake...
...For only my sake, won't you play for me from now on?

The forms of spirits that you draw forth being given only to me...
Is that... not okay with you?

?
And in return...
I will stay close by your side.
And you must continue to play for my sake wholeheartedly as much as you can.
If any kind of enemy were to come, I will use my all to protect you.
Would you play... for only my sake?
.....
...Yes.
Close your eyes...
Then... This is the mark of our pact.
Is that fine?
